

# ASTRA Meeting

Update on ARRA Reporting

Elaine Frisbie, Division of the Budget

Martin Eckhardt, Division of Accounts & Reports

September 17, 2009

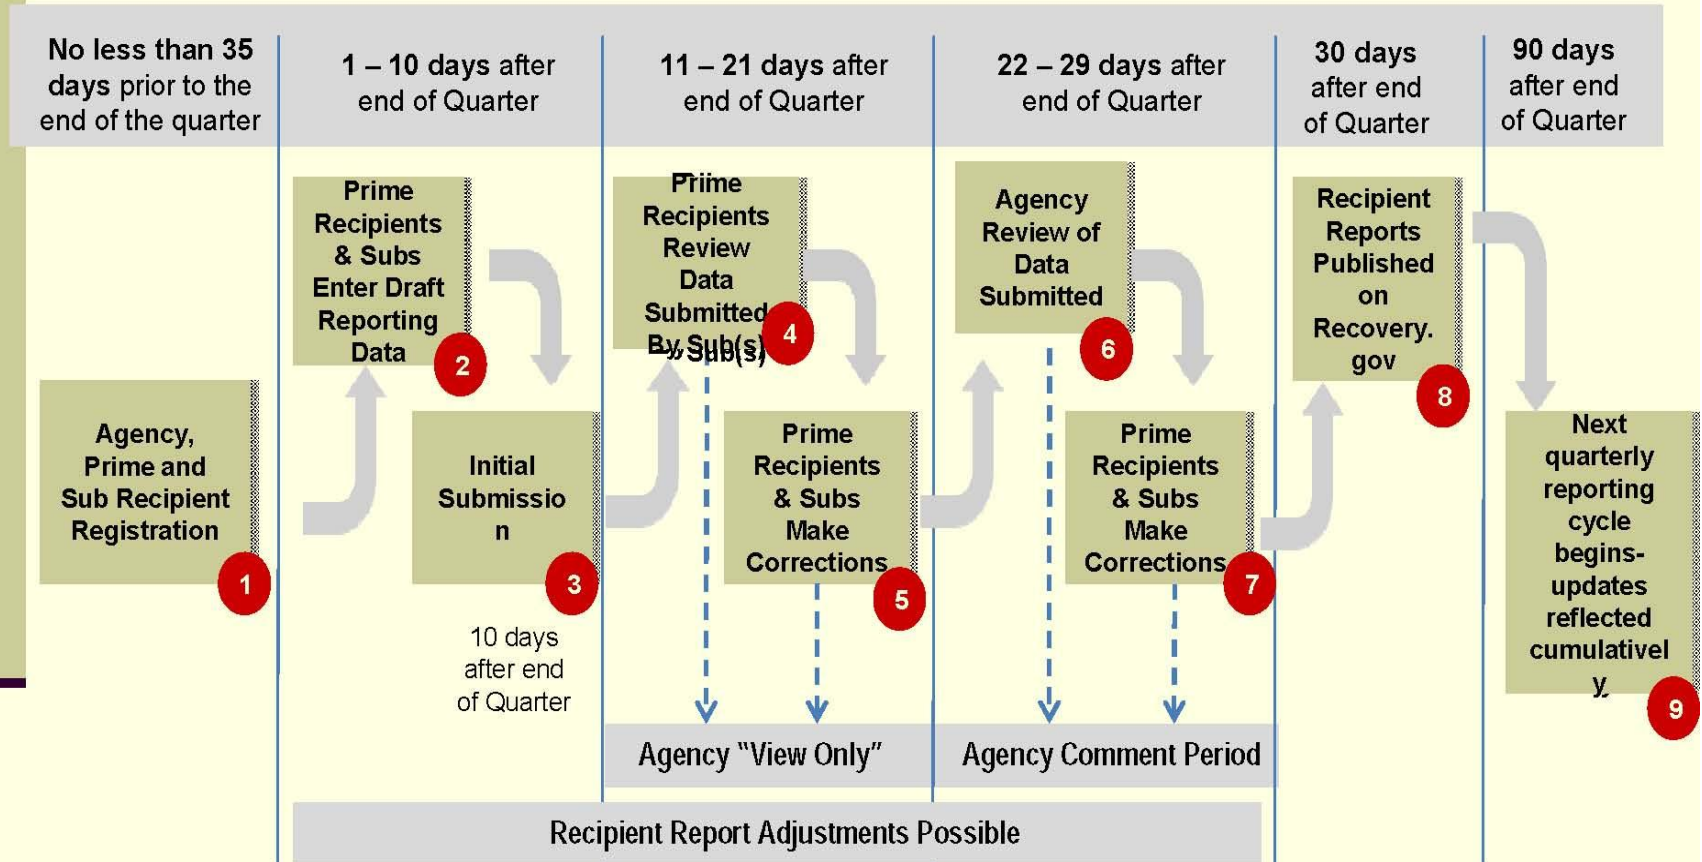

# American Recovery and Reinvestment Act of 2009

- Section 1512 of the Act requires prime recipients (state agencies) to file quarterly reports to the federal government, beginning October 2009.
- Not all ARRA programs are covered by this requirement (such as Medicaid and Unemployment benefits).
- You should have received communication from your federal awarding agency to clarify what is covered and what is not.

# ARRA Section 1512 Reporting

- [Federalreporting.gov](http://Federalreporting.gov) is the federal government's portal for recipients to file reports.
- Agencies must register with both the CCR website and the “[federalreporting.gov](http://federalreporting.gov)” website prior to filing the reports.
- Registration keys off the state agency's DUNS number used when making application for the grant.

# In-bound Recipient Reporting (FederalReporting.gov) Timeline and Activities

# Major Recipient Reporting Activities

# Federal Reporting of ARRA Data

- The federal Recovery Accountability and Transparency Board plans to launch a new version of Recovery.gov website at the end of September.
- All reported data associated with Recovery grants, loans and other assistance will be displayed October 30.
- All data changes made between October 11 and 29 will be tracked, chronicled and made available “shortly after November 1.”

# Kansas Reporting of ARRA Data

- Kansas is taking a “de-centralized” approach.
- Kansas agencies will complete the Excel template provided on the Recovery.gov website (revised August 14) for every grant program.
- Secretary Goossen directed state agencies to provide copies of Excel reports to Division of the Budget.
- These should be e-mailed to [recovery@budget.ks.gov](mailto:recovery@budget.ks.gov) within the ten day submission window October 1-10.
- DOB analysts will do a cursory review to ensure all grant programs have submitted reports and expenditure data compare “reasonably” with STARS data.

# Kansas Reporting, Continued

- We have been told that a federal government representative will be in Kansas to provide on-site assistance, but we have no details yet.
- For now, direct questions to your awarding agency or federal contact, and then to your budget analyst.
- DOB will convert the Excel data to a database to make the information available to the public on the Kansas Recovery website.
